

## Python Environment Setup

1. The software I am using: WinPython-64bit-3.4.3.5

Download: <http://winpython.github.io/>

2. How to install PyDAQmx library

Open this file:

 WinPython Command Prompt.exe

Then type:

Pip install PyDAQmx

You can install pyaudio library using the similar method.

If you have any question, see

<https://github.com/winpython/winpython/wiki/Installing-Additional-Packages> for reference.
